REPORT

ON THE

RAIL-BORNE TRAFFIC OF BENGAL

During the year 1895-96.

THIS report, the twelfth of its kind, furnishes statistics of the total trade, external and internal, of the Lower Provinces of Bengal, carried by rail during the year 1895-96 as registered under the block system. It is based on

Assistant Auditor, East Indian Railway, Jamalpur.

Examiner, Guaranteed Railway Accounts, Bombay.

Auditor and Examiner, Bengal North-Western and Tihut Railways, Gorakhpur.

Auditor, Ondh and Rohilkhand Railway, Lucknow.

Examiner of Accounts, North-Western Railway, Lahore.

Examiner of Accounts, Eastern Bengal State Railway System, Sealdah (Calcutta).

Auditor, Bengal-Nagpur Railway.

returns furnished by the officers named in the margin, and on the following Reports, viz., the Report on the earnings of the East Indian Railway Company; the Report by the Collector of Customs, Calcutta; the Reports by the Railway authorities on trade fluctuations and changes in railway freights; the section relating to weather and crops in the General Administration Reports submitted to Government by Commissioners of Divisions; the weather and crop report of the Director of Land Records and Agriculture, Bengal; and the trade valuation statements received from four selected marts, the Collector of Customs, Calcutta, the Board of Revenue. L.P., the Calcutta tea and indigo brokers, and from the several Local Governments and Administrations in India.

2. Owing to the opening of the East Coast Railway, the Orissa Division was made a separate trade block from the 4th quarter of 1895-96, the number of internal blocks in Bengal being thus increased from 7 to 8.

3. The values of all the articles of trade specified in the valuation statement appended to this Report have been assigned according to the system explained in paragraph 3 of Report for 1893-94.

4. No measures were taken during the year for the registration of inland trade other than that dealt with in the river-borne traffic report of Bengal.

CHAPTER I.

GENERAL SUMMARY OF THE SEASONS AND RESULTS OF THE HARVESTS AND NOTICE OF PRICES.

THE rainfall during the year 1895-96 was considerably less than in the two preceding years. Throughout the greater part of April the fall was well distributed, and was generally above the normal. In the early part of the month of May it was copious over the whole province, and during May, Eastern Bengal received more than the normal, while South-West Bengal, parts of Northern Bengal, and Orissa received less than the normal fall. In June the rainfall was altogether abnormal. East and North Bengal received less than half the usual rain. In Central Bengal the rainfall was short, but Orissa received double the normal fall. In July and the first half of August, the rainfall was generally deficient in Central and Western Bengal, but in North Bengal and North Bihar there was excess, and in East Bengal the falls were irregular.

2. The year was on the whole favourable to the cultivation of *bhadoi* crops. Six out of the forty-five districts of these provinces returned an average crop of 16 annas, twenty-six districts returned crops varying from 12 to less than 16 annas, and thirteen from 9 to less than 12 annas. The general yield of the crops was nearly as good as that of the year 1894, and was estimated by the Director of the Agricultural Department at 14 annas.

The uneven distribution of rain during the early part of the season, and the subsequent early cessation of the monsoon rains of 1895 proved detrimental to the outturn of winter rice. Out of the 45 districts of these provinces, only two districts, viz., Dinajpur and Tippera, reported crops above the average of 16 annas; three districts, viz., Rangpur, Pabna, and Balasore, reported average, or 16-anna crops; twenty districts reported crops varying from 12 to less than 16 annas; fifteen districts reported crops from above 8 to less than 16 annas, and five districts returned an 8-anna or less than an 8-anna crop. In the final forecast of the winter rice crop, which was issued by the Agricultural Department on the 10th December, the outturn for the province was estimated at 13 annas. The actual outturn may probably have been less. In 1894 the outturn was estimated at 17 annas.

The latter part of the monsoon season of 1895 was characterized, as stated above, by an early cessation of the rains. A period of protracted drought followed, lasting throughout the cold weather, and the *rabi* crops of the province suffered materially in consequence. Out of the 44 districts from which returns were received in the Agricultural Department, only one district, viz., Rangpur, estimated the outturn of the *rabi* crops at 16 annas. Eighteen districts reported crops varying from 12 to 15 annas, and twenty-five districts reported crops of less than 12 annas. The Director of the Agricultural Department estimated the general outturn of the *rabi* crops of the province at 11 to 12 annas.

3. The outturn of the jute crop was estimated by the Agricultural Department at 17 annas, against 16½ annas in 1894-95. Tippera, Pabna, and Dinajpur returned a bumper crop; Rangpur and Rajshahi an average crop; and Mymensingh, Dacca, Faridpur, Bogra, and Purnea from 13

to 15½ annas. In Jalpaiguri the crop was 10½ annas only, and in Bogra, Jalpaiguri, and Mymensingh it was injured by floods. On the whole, six of these districts returned a better crop than in the preceding year, one an equal crop, and four a crop not so good. In the less important jute districts in Central and Western Bengal scanty rainfall at sowing time reduced the outturn below that of last year.

The season was not unfavourable for indigo, which yielded a very good crop in Bihar and a fair one in Bengal. The excessive rainfall in July in North Bihar, however, spoiled the manufacture from the first cuttings, and made a second cutting impossible. The outturn was less than in 1894-95, being 14 annas against 17 annas.

The early cessation of the rains in the latter part of the monsoon season of 1895, and the protracted drought which followed, considerably damaged the tobacco crop. In Rangpur, however, where the crop is most largely grown, the outturn averaged 16 annas. For the province, as a whole, the yield was about the same as in 1894-95, viz., 13 annas.

The sugarcane crop also suffered from the same climatic conditions as the *rabi* crops, the result being an outturn of a 12-anna crop, against 13½ annas in the preceding year.

For want of rain during the sowing season, the area cultivated in poppy was less than in the previous year, and the outturn suffered from the same cause. The outturn for 1895-96 has been estimated by the Agricultural Department at 12½ annas against 13½ annas in 1894-95 as stated in the Opium Administration Report for that year.

For want of rain, the ganja crop in the Rajshahi Division yielded only three-fourths of an average crop against a full average crop in 1894-95.

4. A detailed statement giving the outturn of the above crops, district by district, is appended to this report.

RETAIL PRICES OF FOOD-GRAINS.

5. The abstract below shows the average retail prices of food-grains in Bengal during the year 1895, as compared with those ruling in the preceding year:—

				QUANTITIES PER RUPEE IN SEERS OF 80 TOLANS.

On the 31st March 1896 prices of common rice were lower than the prices ruling on the corresponding date of the previous year in Dinajpur, Jalpaiguri, Darjeeling, Rangpur, Cuttack, Balasore, and in all the districts of the Patna Division, except Muzaffarpur. Prices were equal in the 24-Parganas, Khulna, Monghyr, Bhagalpur, Puri, and Singhbhum, and higher in the remaining districts of these Provinces. The prevailing prices of common rice at the end of the year under report were lower than the prices at the end of the year 1893-94 in all districts of these Provinces except Bankura, where they were equal, and Monghyr, Lohardaga, and Palamau, where they were lower. On the 31st March 1896 the price of common rice ranged from 12 seers per rupee in Hooghly and Mymensingh to 23 seers 10 chitaks in Puri. In twenty-six districts it was selling at 14 to 17 seers, in eight districts from over 17 seers to 20 seers, and in three districts, viz., Cuttack, Balasore, and Puri, at over 20 seers. Only in eight districts, viz., Hooghly, Darjeeling, Noakhali, Chittagong, and all the districts of the Dacca Division, were less than 14 seers to be obtained for the rupee.

WHOLESALE PRICES OF THE PRINCIPAL AGRICULTURAL STAPLES.

6. The average wholesale prices obtaining in Bengal during the past two years for the principal agricultural staples, are shown below :—

NAMES OF STAPLES.				Average wholesale price per maund during the year—		Increase or decrease in 1895-96 as compared with the previous year.

CHAPTER II.

EXTERNAL TRADE OF BENGAL.

STATEMENT II.

The trade of Bengal with other provinces of India registered on the railways during the year 1895-96, as compared with the previous year, was as follows:—

		1894-95.		1895-96.	
		Quantity.	Value.	Quantity.	Value.
		Mds.	Rs.	Mds.	Rs.
Imports into Bengal	...	1,72,94,348	14,13,65,184	1,35,95,602	12,11,48,459
Exports from Bengal	...	1,82,14,072	9,78,39,982	2,26,63,558	9,65,22,682
Total	...	3,55,08,420	23,92,05,166	3,62,59,160	21,76,71,141

It will be seen that the gross quantity of traffic carried both ways during the past year was 7,50,740 maunds, or 2·11 per cent. in excess of that of the previous year. In the import traffic, the decrease was so much as 36,98,746 maunds, or 21·32 per cent., but this was more than counterbalanced by a large advance of 44,49,486 maunds, or 24·42 per cent. under exports. Regarding imports, there were increases under raw cotton, rape and mustard seed, and saltpetre, against heavy decreases under food-grains (39,89,663 maunds) and linseed (6,09,434 maunds). Of the staples exported from Bengal, food-grains showed the largest increase, namely, 22,06,241 maunds, and then coal and coke, salt, and kerosine oil, while those in which there was a considerable falling off were European cotton piece-goods, gunnies, and unmanufactured tobacco.

2. The abstract below shows, province by province, the sources of supply of the imports and the destination of the exports during the past two years. Columns are also added to show the percentage borne by the aggregate trade of each province to the total traffic of the Lower Provinces:—

<i>Imports into Bengal.</i>				<i>Exports from Bengal.</i>

* The high value in 1894-95 was due to the fact that the selling price of opium at the treasury was erroneously adopted by the N.-W. Provinces as the basis of the value rate instead of the actual cost of manufacture.

4. The subjoined statements show the chief fluctuations in the import traffic as compared with the preceding year :—

Staples showing an increase in comparison with the figures for 1894-95.

Other oilseeds ...	60,699	76.74
Ghee ...	24,140	10.43

5. The improvement was due to a larger outturn of the crop, coupled with a good demand in Calcutta for export to Europe. In Lancashire, the cotton trade was not in a particularly prosperous condition, but owing to a smaller American crop there was an advance in the prices of the raw material during the year, and this led to the export of larger supplies from Bengal. Germany is still the largest importer of Bengal cotton, and the exports to that country from Calcutta increased by 116 per cent. in comparison with those of 1894-95.

6. The increase was due to a good outturn and an early season. Large despatches were made from the North-Western Provinces and Oudh to Calcutta for shipment to Europe. The Benares article was good both in quantity and quality, and the Oudh crop also showed an improvement in quality. Shipments to the United Kingdom, Austria-Hungary, France, and Russia showed substantial increases, whilst there was a rather heavy decline to the United States.

7. The decrease was conspicuous in the consignments to Calcutta and Bihar from the North-Western Provinces and Oudh and the Panjab, where the dealers kept back supplies in view of the prospects of the coming season being unfavourable. Owing, however, to poor crops in the United Kingdom, the demand grew keen, which stimulated exports by sea from Calcutta. To the United Kingdom there was a large advance, and there was a resumption of shipments, though not large, to Belgium, France, and Germany.

8. The total decrease under food-grains other than wheat amounted to 31,72,296 maunds or 66·18 per cent., and was due partly to a limited demand for shipment by sea, and partly to heavier imports during 1894-95 for local consumption.

9. Large supplies of this article were consigned to Calcutta from the North-Western Provinces and Oudh for the manufacture of shell-lac, for which there was a great demand for shipment by sea, the exports during the past year having increased by 23·8 per cent. as compared with 1894-95, and being the highest recorded since 1891-92. The principal advance was to Germany; there were also increases to the United Kingdom, Austria-Hungary, France, and the United States.

10. The traffic in ghee showed a falling off during the past year against an increase shown in the figures of the two previous years. The decrease occurred chiefly in the despatches from the North-Western Provinces and Oudh to Calcutta.

11. An increase appears in the consignments from the North-Western Provinces and Oudh and the Panjab to Calcutta, where there was a brisk demand for export. The production of saltpetre was stimulated by high prices during certain portions of the year, but latterly there was a considerable fall in values. There was a large increase in exports for China and Japan, the advance to Hong-Kong being 32·8 per cent.; the past year's figures are higher than those in any of the preceding four years.

12. As regards oilseeds, there was a decrease in the case of linseed, castor seed and other oilseeds, against an increase under mustard seed. The linseed crop was smaller than in the previous year, the result being that the exports to foreign ports from Calcutta declined by 34·9 per cent. in comparison with 1894-95. There were decreased shipments to the United Kingdom, France, and Germany; and a total cessation to Holland and Egypt. The increase under mustard seed was due to a good demand for crushing purposes, and to the receipt of larger consignments by rail from Upper India, to take the place of supplies which are ordinarily received by boat from Assam, but which failed during the year under report owing to poor crops in that country. The advance under castor seed occurred in the despatches to Calcutta from the North-Western Provinces to meet local requirements.

13. The fluctuations under this head were due to larger supplies having been sent from the North-Western Provinces and Oudh to Bihar. The exports of refined sugar from

Calcutta to the United Kingdom during 1895-96 fell to very small figures, namely, 1,499 maunds, against 20,697 maunds in 1894-95, and 1,10,918 maunds in 1893-94.

14. The following statements show the principal articles exported during the past year in which fluctuations were most conspicuous in comparison with the figures for the previous year:—

Articles showing an increase in comparison with 1894-95.

		Quantity of increase.	Percentage of increase.
		Mds.	Per cent.
Coal and coke	...	24,88,554	21·92
Wheat	...	1,36,805	7,073·68
Rice not in the husk	...	4,67,532	86·61
Gram and pulse	...	6,45,412	3,918·47
Other food-grains	...	8,86,396	6,429·21
Lac-stick	...	46,149	49·61
Kerosine oil	...	1,12,572	16·92
Salt	...	1,39,111	42·52
Sugar, unrefined	...	77,251	42·94

Articles showing a decrease in comparison with 1894-95.

		Quantity of decrease.	Percentage of decrease.
		Mds.	Per cent.
Cotton piece-goods, European	...	1,10,269	15·66
Gunny-bags and cloth	...	1,69,238	24·19
Tobacco, unmanufactured	...	1,18,486	47·23

15. The increase under this head, which has been continuous for several years, was due to an active demand for foreign Coal and coke. railways, for brick-burning purposes, and for use in mills. The improvement occurred in the exports from the Bihar and Western Bengal blocks to the North-Western Provinces and Oudh, the Panjab, and the Central Provinces, but there were decreases in the consignments from those blocks to Berar and Rajputana.

16. The advance shown in the previous year's report was not sustained during 1895-96, when the exports fell off by Cotton piece-goods, European. over 15½ per cent. The bulk of the decrease appears in the despatches for the North-Western Provinces and Oudh, the Panjab and the Central Provinces. The importation of European cotton piece-goods into Calcutta from foreign countries during the past year showed a decline of 11·04 per cent. on the totals of the preceding year.

17. Considerable consignments of all sorts of food-grains were made to the North-Western Provinces and Oudh, the Panjab, Food-grains. the Central Provinces and Rajputana from Bihar for local consumption. The Western and Northern Bengal blocks also contributed to the exports of husked rice to the Upper Provinces.

18. The falling off, which is observable in the consignments from Calcutta to the North-Western Provinces and Oudh, the Gunny-bags and cloth. Panjab and the Central Provinces, and in those from Western Bengal to the North-Western Provinces and Oudh and the Panjab, was in sympathy with the decreased traffic in grains and seeds.

19. The advance noticed in the previous report was maintained and further extended during 1895-96. Larger supplies of this article were consigned from stations on the Bengal-Nagpur Railway and from Patna and Gaya chiefly to Mirzapore for Lac, stick. manufacturing purposes. The condition of the sea-borne trade has already been explained in paragraph 9 of this report.

20. The improvement was due to a good demand from up-country trade centres. The increase appears chiefly in the supplies from Budge-Budge to the Panjab and the Central Provinces. Kerosine oil.

21. Owing to larger consignments of sea-imported salt from Calcutta to the North-Western Provinces and Oudh, the trade under this head showed an increase.
22. The increase under this head was due to larger supplies having been sent from Bihar and Calcutta to the North-Western Provinces and Oudh for local consumption.
23. Owing to a poor crop, there was again a very considerable decrease in the exports of unmanufactured tobacco from Bihar to the North-Western Provinces and Oudh and the Central Provinces.

CHAPTER III.

INTERNAL TRADE OF BENGAL.

STATEMENT III.

The total weight of the internal trade of Bengal, which passed from one registration block to another within the Lower Provinces during the past two years, is shown in the following statement:—

Exports from the—	Into the Bihar block.	Into the Western Bengal block.	Into the Eastern Bengal block.	Into the Northern Bengal block.	Into the Dacca block.	Into the Calcutta block.	Into the Chota Nagpur block.	Total.	Increase (+) or decrease (—) as compared with 1894-95.

2. The not quantity of the downward and upward traffic, and the percentage of the Calcutta traffic to the total trade, will be seen from the subjoined statement:—

	Total traffic.		Calcutta traffic.		Proportion of the Calcutta traffic to the total trade.	
	1894-95.	1895-96.	1894-95.	1895-96.	1894-95.	1895-96.
	Mds.	Mds.	Mds.	Mds.	Per cent.	Per cent.
Downward traffic	7,38,52,082	8,46,54,299	5,29,79,261	6,34,69,264	71·73	74·97
Upward "	1,52,00,036	1,73,88,842	1,15,95,478	1,27,21,724	76·28	73·16
Total	8,90,52,118	10,20,43,141	6,45,74,739	7,61,90,988	72·51	74·67

The total weight of goods registered during the past year was 14·59 per cent. in excess of that of the preceding year. The trade of Calcutta showed an increase of 19·8 per cent. in the down traffic and of 9·71 per cent. in the up traffic, as compared with the figures for 1894-95. In the down trade, the items which contributed most largely to the increase in the traffic of the year as compared with that of 1894-95 were as follows: the figures represent the increase in each case:—coal and coke—1,27,67,331 maunds; wheat—4,33,469 maunds; gram and pulses—13,06,497 maunds; and other food-grains—1,36,081 maunds. The articles which showed a marked decrease were raw jute, which fell off by 13,16,437 maunds; rice by 10,21,580 maunds; paddy by 4,77,484 maunds; linseed by 4,40,373 maunds, and unrefined sugar by 1,00,978 maunds. In the up trade, the largest increase was in coal and coke, which rose by 12,74,602 maunds; salt by 1,43,345 maunds; kerosine oil by 78,805 maunds; and European cotton piece-goods by 69,914 maunds, and the largest decreases were in rice, 2,66,471 maunds, and in iron 1,24,004 maunds.

Calcutta Trade.

3. The following statement shows the imports of the chief articles of merchandise into Calcutta by all routes, and the exports therefrom by sea, during the past two years :—

5. *Coal and coke*.—The downward traffic under this head showed an advance of 31·58 per cent. over the figures for the previous year, and was due to a good demand for export to coast ports, and also for use in the mills and factories, and for brick-burning purposes.

6. *Cotton piece-goods (European)*.—The increase which amounted to 5·20 per cent. in comparison with 1894-95, occurred in the consignments from Calcutta to Eastern Bengal, Dacca, Bihar, and Chota Nagpur.

7. *Wheat*.—The increase was due to a good demand for export to Europe, which stimulated supplies being sent to Calcutta from almost all the internal trade blocks in Bengal.

8. *Food-grains other than wheat*.—Under this head, gram and pulses show an advance of 112·20 per cent. on the returns of 1894-95, the principal trade blocks contributing to the increase in the imports thereof into Calcutta being Western, Eastern, and Northern Bengal, and Bihar. Last year large supplies of gram were shipped from Calcutta to Mauritius, Ceylon, and the Straits Settlements for the use of the coolies employed there. In the case of miscellaneous food-grains, the figures showed an increase of 48·16 per cent. Large supplies of several sorts of food-grains grouped under this head were despatched from Bihar and Western and Eastern Bengal to meet the local demand in Calcutta and Northern Bengal. As regards rice and paddy, there was a decrease of 29·58 per cent. and 45·07 per cent. in the down traffic, respectively. The scarcity which stimulated the import traffic of the Eastern Bengal and Dacca blocks under these heads during 1894-95 did not exist during the year under report, and hence the falling off. The exports of rice carried upwards increased by 28·54 per cent.; they were consigned for Bihar from Western Bengal.

9. *Hides*.—The down traffic under this head showed a falling off of 11·35 per cent., which appears chiefly in the despatches from Bihar and Dacca to Calcutta, where the trade was not so satisfactory as in the previous year for exporters, owing to unusual fluctuations in prices.

10. *Jute, raw*.—There has been a falling off of 10·18 per cent. in the quantity of raw jute carried downwards. This decrease, however, follows the

large increase noticed in the previous report. The crop was quite as good as in the former year, and prices again ruled low.

11. *Iron*.—The decrease amounting to 12·25 per cent. in the up traffic occurred in the despatches to Bihar from Calcutta, and is attributed to the completion of the water-works at Arrah.

12. *Kerosine oil*.—Under this head, the increase in the up traffic was 12·75 per cent., and was due to larger receipts in Bihar, Western Bengal, Northern Bengal, and Chota Nagpur from Eastern Bengal.

13. *Oil seeds*.—In the down traffic, linseed showed a decrease of 18·12 per cent., rape and mustard seed of 13·09 per cent., and til or jinjili of 59·01 per cent., while poppy seed showed an advance of 37·25 per cent. In all cases, Calcutta was the chief importer and Bihar the chief contributor. The condition of the oilseeds traffic has already been explained above.

14. *Salt*.—The quantity of salt carried upwards showed a slight advance of 3·14 per cent., the increase being shared between Bihar, Northern Bengal, and Chota Nagpur.

15. *Saltpetre*.—In consequence of a better demand for export by sea, the quantity drawn by Calcutta from the Bihar block showed an increase.

16. *Sugar*.—The up traffic in refined sugar showed an increase of 26·40 per cent., and consisted chiefly of exports to Bihar and Western and Northern Bengal from Calcutta. As regards unrefined sugar, the down traffic showed a decrease of 14·33 per cent., chiefly in the supplies carried to Calcutta and Western Bengal from Bihar, while in the up traffic the figures showed an increase of 17·40 per cent., chiefly in the consignments for Western and Northern Bengal from Calcutta.

17. *Tobacco, unmanufactured*.—The increase under this head in the quantities carried downwards amounted to 12·91 per cent., and was due to larger despatches from Northern Bengal to Calcutta and Eastern Bengal, and from Bihar to Western Bengal, for local consumption.

APPENDIX.

Statement of outturn of some of the principal crops, district by district, during the year 1895-96, compiled from the reports published by the Department of Land Records and Agriculture, Bengal.
